- **Purpose:** The user is asked to log into his or her account in order to see the homepage of Tasty Tongue. If they have not made an account, they must register on this page. If they unfortunately forgot the password of their accounts, they can retrieve the account and reset the password here.
- **How users use it:**
  - User enters the username and the password then waits a few seconds for the system to check the identity.
  - In case user did not have an account beforehand, user can press the 'Register' button. The system

Tasty Tongue	Version: 1.2
UI Prototype	Date: 16/12/2023
UI-01	

will then lead them to another form and ask for some basic information in order to create an account for them. After filling in the required information, user presses ‘Register’, the system will check if the input data is valid then notify the user whether the account was registered successfully or not.

- If the user has already had an account but does not remember the password, the account can be retrieved by pressing the ‘Forgot password’ option. The system will ask for the email address that the user has used to register the account, then it will send a verification email to the user. The user will press on the link or the code sent to them in the email then they will be allowed to set up a new password.
